SECURITY TALKING POINTS FOR FIRST PEIAB MEETING

- President's Executive Order establishing the Board requires "all necessary security protection" for information provided.
- Board members will consider extremely sensitive intelligence activities.
- Information on such activities is best protected by discussing it only here and by keeping papers on it stored in Board offices here.

- There will be times when adjustments must be made. We will provide safes to the Chairman and Vice Chairman for secure storage of material classified no higher than SECRET when they need ready access to it. We will also offer one-day, two-way, out-of-town courier service on those few urgent matters that members must consider immediately.
- The best guide for dealing with all press and private inquiries about your duties is a consistent and firm "no comment."
- If you have any problems with this "keep it here - don't talk about it elsewhere" approach, give me the specifics and I'll search for a sound accommodation.
